

## PORTO INTERNATIONAL HIP MEETING 2018 PROGRAM

### DAY 1 - June 29 2018

8:30 Open Secretary

#### 9:00 **Table 1 - Femoroacetabular Impingement I**

Moderator Table: Dr. PEDRO DANTAS

9:00	Painfull Hip Diagnosis	Eurico Monteiro	10
9:10	FAI - Definition and classification	Andre Sarmento	10
9:20	Hip Impingement vs Instability	Filipe Oliveira	10
9:20	Hip imaging in the young adult in 2018. What is recommended?	Vasco Mascarenhas	10
9:30	What`s new in hip arthroscopy	Jesus Mas	10
9:40	Discussion		10

#### 09:50 **Table 2 - Femoroacetabular Impingement II**

09:50	What to do with the labrum?	Gregor Mockel	10
10:00	Evaluation, classification and treatment of chondral lesions in the hip	Oliver Marín	10
10:10	Autologous membrane induced chondrogenesis (AMIC) for the treatment of acetabular chondral defects	Andrea Fontana	10
10:20	Treatment of acetabular chondral defects (Cargel)	Eric Margalet	10
10:30	Rehabilitation of patients with chondral defects. Is it different?	Andrea Fontana	10
10:40	UK non arthroplasty hip register	Ajay Malviya	10
10:50	Discussion		

11:00 COFFEE BREAK

**11:30 Table 3 - EXPERTS PANEL - FAI: FACT, FICTION OR FANTASY?**

**LIVE SURGERY - Hip Arthroscopy**

Moderators: OLIVER MARIN PENA / CRUZ de MELO

11:30	Live Surgery Hip Arthroscopy	Gregor Mockel - Fernando Leal	
	Experts Panel	Paulo Rego, Eric Margalet, Andrea Fontana, Ajay Malviya, Angel Villamor, Pedro Dantas	

13:30 LUNCH

13:40 **Symposium Lunch - Video Techniques**

15:00 **Official Open Congress Session**

15:00	Value in Health		15
15:15	Orthopaedic Surgeon Health	Jenaro F. Valencia	15
15:30	Official Open Congress Session		20

15:50 **Table 4 - Non FAI Hip Pathology**

15:50	Intra-articular hip pathology (Tumours, Psoas, FatPad, Sinovitis, Condromatosis)	Pedro Silva	10
16:00	Greater Trochanter pain syndrome. Gluteus tendon ruptures. Snapping Hip	Angel Villamor	10
16:10	Sub-gluteal space syndrome (from piriformis to ischion)	Jorge Cruz de Melo	10
16:20	Ischiofemoral impingement	Eric Margalet	10
16:30	Endoscopic treatment of a rare entity. Ischiatic Syndrome	Fernando Leal	10
16:40	Discussion		

16:50 COFFEE BREAK

**17:10 Table 5 - Hip Arthroscopy controversies**

17:10	Arthroscopic management in DDH	Ajay Malviya	10
17:20	Hip arthroscopy: Navigation vs conventional	Vikas Khanduja	10
17:30	Revision Hip Arthroscopy	Pedro Dantas	10
17:40	Articular Capsule Management	Fernando Leal	10
17:50	Intra-abdominal pressure control in hip arthroscopy	Ana Castel	10
18:00	Discussion		

**18:10 MESA 6 - Pelvic Trauma**

Moderator: ANTONIO FIGUEIREDO

18:10	Pelvic Trauma, personal experience	António Figueiredo	15
18:25	Pelvic Trauma percutaneous technique		10
18:45	Osteoporosis associated pelvic fractures. An unsolved problem.	J M Rueger	10
18:55	Iliioinguinal vs AIP approach in acetabular fractures	J M Rueger	10
19:05	Acetabular fractures in the aged: new approaches	J M Rueger	10
19:15	Discussion		

19:25 End Session Day 1

## Day 2 - Junho 30 2018

8:30 Open Secretary

### 9:00 **Table 7 - Extreme morphological alterations. Acetabular and femoral osteotomies**

Moderator: PAULO REGO

09:00	Anatomic basis for safe CAM resection	Paulo Rego.	10
09:10	Arthroscopic vs open treatment of CAM type FAI. Retrospective cohort clinical study	Pedro Pinto	10
09:20	Arthroscopy and rotational disorders of the lower extremities	Carlomagno Cardenas	
09:30	PAO for dysplastic and no dysplastic morphologies	CarloMagno Cardenas	10
09:40	Complex morphologies approach	Paulo Rego	10
09:50	Discussion		

### 9:50 **Table 8 - Coxarthrosis in young adult**

9:50	Exercise and osteoarthrosis myth or reality, harmful or beneficial?	Sergio Gonçalves	10
10:00	Regenerative Medicine: PRP, hialuronic acid. Can we reproduce the results of the knee in the hip?	Henrique Jones	10
10:10	When the arthroplasty?.What lifestyle after?	Miguel Hermida	10
10:20	Improving value in total hip replacement		10
10:30	Discussion		10

10:40 COFFEE BREAK

**10:50 FIDELIDADE BEST POSTER AWARD (Fidelidade Stand)**

**11:00 Table 9 - Total Hip Replacement in young adult (I)**

11:00	A Minimally invasive posterior approach SPAIRE. Why I chose?	Matthew Wilson	10
11:10	Direct anterior approach, why I changed? The Vall d'Hebron Hospital experience	Alejandro Hernández	10
11:20	Why I didn't change my posterior approach?		10
11:30	Why I didn't change my lateral approach?		10
11:40	Direct Anterior approach and posterior approach. Why I use both?	Jorge Cruz de Melo	10
11:50	Discussion		

**12:00 Table 10 - Total Hip Replacement in young adult (II)**

12:00	47 years of Cemented Hip Arthroplasty. The Exeter experience	Matthew Wilson	10
12:10	Can the Hip Arthroplasty be an ambulatory surgery?	Jenaro Fernández Valencia	10
12:20	The new generation of highly crosslinked polyethylene in the young patient		10
12:30	ceramic on ceramic hip arthroplasty, a new standard?	Federico Giardina	10
12:40	Metal-metal interface, where are we now?	Lafayette Lage	10
12:50	Indications for Double Mobilidade	Raul Almeida	

13.0	Discussão		10
